## Federally Inspected

SunGold Specialty Meats is Canada's largest federally inspected lamb processor and sources high quality grain-fed lamb throughout Western Canada. SunGold buys lambs from producers year-round but offers advance contracts. To deliver off contract please allow several weeks' notice of lamb supply. SunGold works very closely with the industry to maintain and improve high product quality. A grid system is applied to determine price. Please contact SunGold Specialty Meats directly or see the producer page of their website for further information.

## Provincially Inspected

Producers who sell lambs meat directly to consumers frequently make arrangements for the lambs to be processed, cut and packaged at a provincially inspected abattoir or meat facility. Lambs sold privately to consumers must be processed in provincially inspected abattoirs. **It is illegal to sell meat processed on farm or to allow buyers to process the animals on your property.** Please investigate lamb processing schedule and costs early with your chosen facility.

The following facilities offer custom lamb processing in Alberta.

Please note that this symbol  denotes a **Halal** certified facility.
